ANNUAL TOWN MEETING

March 9, 1963

The Annual Town Meeting of the Inhabitants of Carver was held at the Governor John Carver School on Saturday, March 9, 1963. The meeting was called to order at 2:00 o'clock, P.M., by the Moderator, Bradford H. Cole, and the Invocation was given by Rev. Leo V. Dwyer, Priest of Our Lady of Lourdes Church at North Carver. Theodore E. Halunen and Joseph G. Morris were appointed Tellers and were duly sworn to the faithful performance of their duties.

Article 1, relating to the election of officers, having been disposed of at a prior meeting, the meeting proceeded to act upon the Articles in the Warrant beginning with Article 2, as follows:

Article 2, VOTED to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1963, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Article 3. VOTED that the control and purchase of all municipal insurance be placed under the direction and control of the Selectmen, said vote to become effective on May 1, 1963.

Article 4. VOTED to raise and appropriate the sum of \$1400.00 for the Municipal Insurance Account.

Article 5. VOTED to appropriate the sum of \$2000.00 from free cash in the Town Treasury for the sole purpose of meeting charges against the Cemetery funds in the Town treasury.

Article 6. VOTED to raise and appropriate the sum of \$650.00 to be used to pay for all private work and material in Town Cemeteries, such as opening graves, building foundations, etc., as according to General Laws, Chapter 44, Section 53.

Article 7. VOTED to raise and appropriate the sum of \$300.00 for the purpose of applying a seal coat to the driveways in the Central Cemetery.

Article 8. VOTED that the Dog Fund be applied to the Library Account.

Article 9. VOTED to raise and appropriate the sum of \$100.00 for the use of Plymouth County Trustees for County Aid to Agriculture and choose a Town Director as provided in Section 41 and 45 of Chapter 128 of the General Laws. Thereupon, Mr. Earl E. Boardway was duly nominated and unanimously elected Town Director County Aid to Agriculture.

Article 10. VOTED to transfer from the Overlay Reserve Account to the 1963 Reserve Account the sum of \$5,000.00.

Article 11. VOTED to fix the salary and compensation of all elective officers of the Town, such salaries to be retroactive to January 1, 1963, as provided by General Laws, Chapter 41, Section 108, as amended, namely:

Highway Surveyor	\$100.00 per week

The Moderator then requested and received the necessary unanimous consent of the assembly to present the following resolution which was unanimously adopted: 'That a committee consisting of Mrs. Elthea E. Atwood, Bernard E. Shaw and Ralph E. Washburn, all of South Carver, and members of the Carver Historical Association, working with the approval and in conjunction with Mrs. H. Clayton McFarlin and/or the executor or administrator of the estate of the late H. Clayton McFarlin, investigate the possibility of obtaining Mr. McFarlin's records, diaries and notes pertaining to cranberry bog construction, bog maintenance, and all facets of cranberry growing, which after being placed in proper booklet form, could become a permanent public record.' It was also voted that the committee report back to the town not later than the 1964 Annual Town Meeting.

Meeting adjourned at 6:07 P.M.

SPECIAL TOWN MEETING

July 11, 1963

A Special Town Meeting of the Inhabitants of the Town of Carver was held at the Governor John Carver School on July 11, 1963. The meeting was called to order at 8:00 o'clock P.M., by the Moderator, Bradford H. Cole, and the meeting proceeded to act upon the Articles in the Warrant as follows:

Article 1. VOTED, unanimously, to accept the provisions of Chapter 40 of the General Laws, Section 8C, authorizing the Board of Selectmen to appoint a Conservation Commission, and the provisions of said Chapter 40, Section 5, clauses (51) and (50) providing for the operation and maintenance of said conservation commission, and the Board of Selectmen are hereby directed, within thirty days of the acceptance of this Article, by vote of the town meeting, to appoint a conservation commission composed of seven members; and the conservation commission so established are hereby authorized to expend the sum of one hundred (\$100.00) dollars for the purposes of the law."

Article 2. VOTED "to appropriate from available funds in the treasury the sum of one hundred (\$100.00) dollars for the use of the Conservation Commission."

Article 3. VOTED "to transfer the sum of one thousand five hundred (\$1500.00) dollars from the Road Machinery Fund for the purpose of purchasing a used long wheel-base truck and chassis for the use of the Highway Department, and that said long wheel-base truck and chassis be purchased with the approval of the Highway Surveyor and Selectmen."

Article 4. VOTED to appropriate from available funds in the Treasury the sum of five hundred (\$500.00) dollars, said sum of money to be added to the Library Account.

Article 5. VOTED to adopt the protective by-laws proposed by the Carver Planning Board, as amended, in accordance with Article 5 of the Warrant. (The full text

of this by-law is available in pamphlet form at the Town Clerk's office, and is, therefore, not included herein. The by-laws were approved by the Attorney-General on July 26, 1963, and were published once each week for three successive weeks in the Middleboro Gazette, the last publication being on August 29, 1963, the effective date of the by-law).

VOTED, unanimously, to adjourn. Adjourned at 11:35 P.M.

A true record. Attest:

ONNI H. ERICKSON, Town Clerk

REPORT OF TOWN AUDITORS

We submit herewith our report of an audit of the books and accounts of the Town of Cerver for the period from January 1, 1963 to December 31, 1963. We find the records and books neat, accurate and in excellent order for which we express our appreciation.

Respectfully submitted,

REPORT OF THE HIGHWAY SURVEYOR

To the Honorable Board of Selectmen
Carver, Massachusetts

Gentlemen:

The Chapter 81 allotment of \$24,750.00 of which the town appropriated \$6,600.00 and the state \$18,150.00 must be used for maintenance purposes only. Out of this amount approximately \$11,235.00 was used to purchase and apply 37,450 gallons of asphalt for sealing the streets. The remaining \$13,515.00 was used for patching, catch basins, culverts, shoulders and other miscellaneous maintenance operations.

The Chapter 90 allotment of \$32,000.00, of which the town appropriated \$8,000.00, the county \$8,000.00 and the state \$16,000.00, was used on two streets. \$16,000.00 was allotted for Main Street where 1100 feet of road was completely built to a width of 26 feet with proper drainage, nine inches of new gravel and approximately 600 tons of Bituminous Concrete Type I surface applied. \$6,125.16 of the remaining \$16,000.00 was used to apply 2½ inches of Type C1 mix 3000 feet in length. The remaining \$9,874.84 will be used on Tremont Street on completion of County Layout.

Respectfully submitted,

EUGENE J. CLIFFORD, *Highway Surveyor*

Carver, Massachusetts	
Gentlemen:	

In July the library was moved to its new quarters upstairs in the auditorium. This required five new bookcases to hold juvenile books and a cabinet for the periodicals. Twelve sturdy maple chairs were purchased for the young adults' area on the platform and a book-truck to aid in shelving returned books and magazines.

Our first volunteer student library assistant was a high school girl, a summer resident, who spent many of her vacation hours helping the regular librarian. We now have a seventh-grade girl being trained in library service.

In November we held our first Book Fair. Some excellent posters were made by the school children, and book-marks by the Girl Scouts. We wish to thank these young people, their teachers, their leaders, and the "Friends of the Library" who planned and conducted the fair, as well as those who attended and in any way contributed to its success. The proceeds helped purchase the new book-truck.

Again let us express our gratitude to the donors of many good books and magazines, and to the members of the Carver Garden Club for the flowers and plants they have provided throughout the year.

Four Sabin oral vaccine clinics were held in 1963.

On January 24 a Sabin 1 make-up clinic was held with 68 drinks administered. Mrs. Charles Johnson, R. N. assisted with the clinic.

On March 19 two Sabin 2 clinics were held: one during the day for the school children and one in the evening for the adults. 722 drinks were administered. Mrs. Robert Bishop, R. N. assisted with the clinic.

On March 29 a Sabin 2 make-up clinic was held with 85 drinks administered.

On May 21 a Sabin 3 make-up clinic was held with 120 drinks administered.

Mr. and Mrs. Eino Laine donated a pair of adjustable children's crutches and Mrs. Aime Desroches donated a pair of adjustable adults' crutches to the Town of Carver.

On January 8 the Town of Carver purchased a Titmus vision-testing machine.

In January Mrs. Charles Johnson, R. N. relieved for the nurse during six days sick leave.

On March 26 the nurse met with Miss Mary Cannon to discuss the establishment of tuberculosis case study registers.

On April 23 the nurse met with three registered nurses of Carver to discuss clarification of functions and personnel policies of the Carver Public Health Nurse. The Public Health Nurse Committee studied the proposals, made a few revisions, and the final draft went into effect in November.

On May 3 the film "The Story of Menstruation" was shown to fifth-grade girls and their mothers.

Mrs. Uuno Pentti, R. N. had been the Public Health and School Nurse for the Town of Carver since July 1, 1961. Her resignation, as of May 31, 1963, was regretfully accepted. On June 1 Mrs. Arne M. Erickson, R. N, assumed the duties of Public Health and School Nurse.

On June 6 and 7 pre-school registration was held at The Benjamin Ellis School with forty-six children registered.

On September 16, 18, and 25 Dr. W. Vernon Mayo completed physical examinations of grades one, four, seven, and Special Class, of athletes and transfers. 145 children were examined.

On October 16, 17, and 18 Mrs. Bernadine Tassinari, school dental hygienist, examined the teeth of all the school children. Referrals were sent home to the parents.

In October the nurse was instructed to operate the Maico Audiometer and the Titmus Vision-testing machine by Mr. Reardon from the Division of Maternal and Child Welfare. Hearing tests have been completed for the 1963-1964 school year. Failure notices have been sent home to parents for follow-up care.

On December 1 the new rate schedule for patient care went into effect. Rates for office calls are \$1.50; home visits, \$2.00; visits during off-duty hours, \$2.50. Supplies which cost over \$.50 will be charged to the patient.

On December 6 Mr. Cesar Aleman from The Plymouth County Health Association did Tubercular Tests on children in grades one, four, seven, and special class. 121 children were tested. On December 13 Mr. Aleman read the tuberculin tests and found three positive reactors. Follow-up case studies are now in progress. The sale of TB pins to the school children netted \$12.78.

I wish to thank the Public Health Nurse Committee, Mr. Richard Eldridge, principal, teachers, and parents for their help and cooperation.

REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen
Carver, Massachusetts

Gentlemen:

The Planning Board of the Town of Carver submits the following activities for the year 1963.

A public hearing was held June 17th, 1963 to discuss the final revisions of the proposed Protective By-Laws.

At a special town meeting held July 11th, 1963 the Town of Carver adopted the Protective By-Laws substantially as submitted by the Planning Board and subsequently approved by the Attorney General.

Thirteen plans were submitted to, and endorsed by, the Planning Board as not coming under the Subdivision Control Law, therefore not requiring further action by the Board.

One or more members of the Planning Board attended each of the public hearings held by the Zoning Board of Appeals.

REPORT OF VETERANS' SERVICES

December 31, 1963

Honorable Board of Selectmen
Carver, Mass.

Gentlemen:

May I submit for your approval my fifth annual report as your Veterans' Agent.

Our department has been very busy in helping indigent veterans and their dependents.

Although we were able to turn back to the E and D fund a substantial amount of our appropriation, this is not to be construed that it will always happen this way. This year there were not many hospital and medical bills to pay.

Being able to apply for disability under Social Security has helped our program as this money would have to be raised by taxation if it were not available from the Federal Government,

I intend to continue to be in the Town Hall the fourth Tuesday of each month between 7:30 and 8:30 P.M.

May I take this opportunity to thank all the Town officials for their excellent cooperation.

Respectfully submitted,

GEORGE E. WHEELER

REPORT OF THE CONSERVATION COMMISSION FOR 1963

The conservation commission in 1963 held four meetings primarily to establish guidelines by which maximum benefits can be realized from the natural resources of the town. Topics discussed include watersheds suitable for a future town water supply, town forests, town recreation areas, and ways to encourage greater foresight and interest along these lines.

An overlay map for use by the commission has been planned which will aid in spot-lighting areas of interest to be studied and correlated with the many interest groups and agencies within the town. Land presently owned by the town will be posted on this map also.

REPORT OF THE ZONING BOARD OF APPEALS

To the Board of Selectmen
Mr. Frank R. Mazzilli, Chairman
Carver, Massachusetts

With the passage of Protective By-Laws, in the spring of 1963, the Board of Selectmen of the Town of Carver appointed a Board of Appeal. This Board consists of three regular and two alternate members.

The Board has held several preliminary hearings and has consulted with the Planning Board and the Building Inspector.

During the period since its appointment until January 1, 1964, the Board has heard five appeals. The results are as follows:

REPORT ON PUBLIC WELFARE

To the Honorable Board of Public Welfare

I hereby submit my report on Old Age Assistance, Medical Assistance for the Aged, Aid to Families of Dependent Children, Disability Assistance, and Public Welfare for the fiscal year ending December 31, 1963.

During the year, fifty-one applications were processed and disposed of as follows:

Approved	37
Referred to other agencies	3
Withdrawals	5
Denials	6

Nine notices were received from other cities or towns and all were acknowledged to be Carver settled cases.

During the year, thirty-five cases were closed for the following reasons:

Transferred to other categories	4
Transferred to other towns	3
Transferred to institutions	3
Moved	1
Employment found	7
Resources available	6
No further need — medical	3
No further need — temporary aid	2
Did not meet agency requirements	1
Deaths	5

A gradual decrease continues in the Old Age Assistance program. Many persons over sixty-five years of age are able to meet their basic needs through social security benefits or other resources but become eligible for Medical Assistance for the Aged in the event that they require medical services. At the beginning of the year there were twenty-eight cases and on December 31, 1963, twenty-six cases. Three new cases were added and five cases closed.

two being transferred to the Medical Assistance for the Aged program. Expenditures increased from \$23,752.59 to \$27,245.71 due partly to the increased cost of living and to higher medical costs.

Disability Assistance expenditures increased from \$5,594.96 to \$6,765.30 due to an increase in caseload and increased medical costs. On January 1, 1963, five cases were aided. During the year, three new cases were approved and five cases closed resulting in three active cases at the end of the year.

On January 1, 1963, six cases were being aided under MAA program and on December 31, 1963, eleven cases were active. Thirteen cases were added during the year and eight cases closed. Expenditures increased from \$16,636.18 to \$19,901.98 due to the number of cases aided and higher cost of medical services.

Aid to Families of Dependent Children cases totaled four on January 1, 1963 and five on December 31, 1963. Six new cases were added and five cases closed. Expenditures increased from \$3,841.41 to \$5,921.05. The average number of children aided was twelve. The number of children in active cases as of December 31, 1963 is thirteen.

Extended social services have been provided to aged and disabled individuals as well as to family cases. Our purpose is to help aged recipients to attain self-care and, as far as possible, help disabled recipients to attain self-care and self-support. In extending social services to public assistance families it is our objective to strengthen family life and reduce dependency through an effective program of services.

Effective September 1, 1963, payments on OAA, AFDC, and DA were increased in accordance with an increase in the cost of living as reported by the Division on the Necessaries of Life. The cost of living index showed an increase of 5.1% from the period May 1960 to July 1963,

Chapter 432 of the Acts of 1963 changed the title of Chapter 118 of the General Laws to Aid to Families with Dependent Children.

Chapter 550 of the Acts of 1963 provided for an increase in the allowance for "Leisure Time Activities" to Old Age Assistance recipients from \$4.00 to \$5.00 per month effective October 1, 1963.

Chapter 566, Acts of 1963 repealed legal settlement in determining the amount of reimbursement to be paid by the Commonwealth to cities and towns for Old Age Assistance. This Act is effective January 1, 1964 and increases State reimbursement to 70% of the remainder, after Federal reimbursement.

Chapter 726, Acts of 1963 repealed certain sections of Chapter 117 of the General Laws which relate to legal settlement in determining the liability of a city or town for General Relief. The Act eliminates legal settlement and provides for State reimbursement of at least 20% and is effective January 1, 1964.

I wish to express my appreciation to the Board members for their cooperation during the year.

PLYMOUTH COUNTY MOSQUITO CONTROL PROJECT

December 16, 1963

Board of Selectmen
Town Hall
Carver, Massachusetts
Gentlemen:

As commissioners of the Plymouth County Mosquito Control Project, we are submitting to your Board and the citizens of Carver, the annual report of the project as prepared by the superintendent.

We have attempted in a brief manner to acquaint your townspeople with the project's activities and objectives.

Respectfully.

HERBERT H. LANMAN

Chairman

In reporting on the project's activities and accomplishments in 1963, there have been several advances made toward the project's number one objective: Namely, the drainage of infected wetlands known to contain species capable of transmitting encephalitis or other virus.

The Eastern equine encephalitis continues to be vital to southeastern Massachusetts, as research in this area shows virus activity is yet present in wild birdlife. We hope we have been instrumental in the fact that there have been no human cases of this virus reported during the last six years. We will continue to emphasize the locating and treating of breeding sites of the vector species of mosquitoes.

The ditch reclaiming phase of control continues to be the best investment in a long range control program. It not only eliminates sources of breeding, but gradually reduces the repeated costly applications of insecticides. Our power-trencher has been concentrating on inland town problems during the warm weather months. I feel we can accomplish more in our coastal salt marshes during the cold

weather periods, utilizing the frost in the ground for greater buoyancy in these areas. Weather permitting, our power unit will be operating the year round.

Aerial spraying for adult mosquitoes is important where a serious nuisance develops and immediate results are necessary. Control of this type is temporary and costly. The project was not designed to expend large sums on this type of control, yet we find it a valuable supplement to our long range efforts. The increasing trend toward outdoor living during the vacation season has added tremendous pressure on the project for temporary control with our five truck-mounted units. We are finding it impossible to satisfy each individual property owner, as we are not set up financially for this type of operation. Our weekly larval inspections and treatment of filter systems, sewage areas, dumps, public parks, ball fields and public gatherings were seriously hampered by increased requests for back yard spraying this past season.

We are cooperating with the newly organized Pesticide Board, and adhere to all State and Federal rules and recommendations as regards pesticides.

Our sincere thanks to your town officials, and your Tree Health and Highway Departments for their splendid co-operation.

Respectfully submitted,

M. CURRIE BEATON, JR.

PLYMOUTH COUNTY AID TO AGRICULTURE

(Plymouth County Extension Service)

by Robert B. Ewing, County Agent-Manager

The primary responsibility of the Extension Service is as the 1914 law states "to aid in diffusing among the people of the United States useful and practical information on the subjects relating to Agriculture and Home Economics and to encourage the application of same."

Resources of the University of Massachusetts and the United States Department of Agriculture are available to the Staff of the Plymouth County Extension Service because of a mutual assistance agreement.

To make this service available to you funds are provided by the Federal, State and County governments. Thus the name — Cooperative Extension Service.

Since 1915, when the Plymouth County Extension Service was organized and established, educational information pertaining to Agriculture, Home Economics and 4-H Club Work has been given free to citizens of Plymouth County.

The Extension Service office is located in the Court House, Brockton, Mass., and is staffed by agents who conduct programs in Agriculture, Home Economics and 4-H Club Work by furnishing educational information through farm and home visits, letters, newspaper articles, radio talks, meetings, office visits and telephone calls.

You are invited to make full use of the services provided by the Extension Service but should remember that although the Extension Service furnishes the information, it is you who makes the decision as to how the information may be used to best advantage.

Requests for information can be directed to the Plymouth County Extension Service, Court House, Brockton, Massachusetts.

The Board of Trustees, appointed by the Plymouth County Commissioners, administer the Plymouth County Extension Service program and is composed of the following members:

Mr. John Prentice, Plymouth — *Chairman*
Mrs. Elva Bent Swartz, Brockton
Mr. Lewis Billings, Plympton
Mrs. Mabel Chandler, Duxbury
Mr. John Duffy, Halifax
Mrs. Gladys Gibbs, Hanover
Mr. Robert Hammond, Wareham

REQUIREMENTS FOR ADMISSION TO FIRST GRADE

1. A child who will reach his sixth birthday on or before December 31st may be admitted to the first grade in September, 1964 without examination.
2. A child whose sixth birthday occurs in the two months after December 31st may be admitted the preceding September if readiness for school can be demonstrated by means of appropriate tests. Parents having a child whom they wish to be examined under this rule are required to make application to the Superintendent of Schools on or before August 15 preceding the opening of school in September. A special form will be furnished for this purpose upon written request from the parent.

The School Committee reserves the right to withhold the examination privilege whenever the number of children eligible to enter without examination is equal to the capacity of the available classrooms.

CLOSING OF SCHOOLS

It is the policy of the School Committee to close school only under the severest weather conditions or on such occasions when it is dangerous to operate school busses. At other times, parents are expected to use their own judgment in sending children to school. When a decision to close schools has been made, this information will be broadcast through the courtesy of radio stations WBZ and WNBH and WPLM.

It should also be remembered there are occasions when under the stress of storm conditions the telephone service cannot keep up with the demands and it is impossible to reach radio stations in order to have an announcement made.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

I herewith submit my first annual report. This report also includes the report of the Supervising Principal.

A year of changel

Two major changes took place this year. For the first time in many, many years Carver now has a high school.

Plymouth-Carver High School was opened on September 4, 1963 with 100 Carver students housed in grades nine through twelve.

On July 1, 1963 Carver officially joined with the Town of Plymouth to form Union No. 62. I do feel that Mr. George Austin, former Superintendent of Schools for the Freetown-Lakeville-Carver Union, should be recognized for his guidance and assistance over the past 22½ years as Superintendent of the Town of Carver Schools. I have had on many occasions the opportunity to work closely with Mr. Austin and indeed considered myself most fortunate. The youth of Carver and the citizens of Carver are aware, I am sure, of the fine leadership and guidance Mr. Austin has given the community over the years.

At present there are still 17 students who are completing their senior year at Middleboro High School. After this class graduates, all Carver students will attend the new high school. Vocational students will continue to be educated in the surrounding vocational schools as space permits.

Since the purchase of a town owned bus, it is evident from expenses to date that this was a very sensible move in the way of an economy measure.

During the summer renovations were completed in the basement of the Benjamin Ellis School, thus allowing us to house all our first and second graders in one building. A temporary occupancy permit has been issued by the Department of Public Safety for the rooms converted to classrooms. This permit is issued only because of the effort being made by the Town to solve its school building problems.

Not only have we been building a new high school and renovating the Benjamin Ellis School, but our curricula being offered to the children has been, and is, under review. Workshops for the teaching staff have been scheduled and faculty meetings are devoted to this area of concentration. The internal operations of the schools will be presented in more detail in the report of the Supervising Principal.

In order to develop a continuity of educational philosophy and goals, the towns of Carver and Plymouth agreed

to engage the services of an Elementary Supervisor for the Union. On December 1, 1963, Mr. Emmett B. Finck, Assistant Superintendent of Schools in Plymouth, agreed to accept this responsible position.

This year the Carver School Department made application for, and was found eligible for, Public Law 874 funds which briefly means that the school department is reimbursed for children whose parents are employed on government property.

May I digress here and remind you that the schools are your schools, we are educating your children, our doors are always open, and please feel free to contact your child's teacher or the principal if you have a concern relating to school. We need your help and understanding in attempting to develop every child's potentiality.

An article calling for the formation of a Building Needs Study Committee was voted at the annual meeting. The following Committee was appointed — Mrs. Mary Gomes, Mr. Paul Williams, Mr. George Paulding, Mr. Frank Mazzilli, Mrs. Virginia Shaw, Mr. Alan I. Dunham, and Mr. Erwin K. Washburn. They have met several times during the year to ascertain the school needs. I believe the Committee will file an oral report as well as sponsor an article for further study.

May I extend my appreciation to the school committee, teachers, cafeteria employees, custodians, and others, who by their gracious understanding and able assistance made this year of transition successful.

I shall continue to give my fullest cooperation and guidance in helping to continue the fine patterns already established for Carver schools.

Respectfully submitted,

F. EDWARD NICOLAS

**REPORT OF THE PRINCIPAL OF THE
CARVER PUBLIC SCHOOLS**

To the Superintendent of Schools:

I hereby submit my report as Principal of The Governor John Carver School and The Benjamin Ellis School for the calendar year 1963.

The Annual Science Fair has proven itself to be a remarkable means of enriching the science program in our schools. All of the pupils who enter exhibits in the Fair deserve much credit.

This year many excellent exhibits were displayed. Cynthia Bouchard was presented the Grand Award for her knowledge and construction of a steam heating system. Cynthia's name and the names of previous winners have been inscribed on a plaque which will be displayed in the school as a lasting recognition of their contributions to our program.

Mrs. Jacqueline Ormsbee was elected in the spring as the physical education director for Grades 1-6 and the girls of Grades 7-8. Mrs. Ormsbee, who majored in Art at The Rhode Island School of Design, also began teaching Art for all grades, and this year is coordinating a fine Art program in both schools.

In May the Spring Music Festival was held. The pupils of Grades 1-6 presented "A Ballad of the North and South" and some fine musical selections were offered by the Junior High School Glee Club. The program was directed by our Music Supervisor, Mr. Donald Morrison, who is continuing to develop a well organized music program in our schools.

Mrs. Rachel Penti resigned as School Nurse in June to accept a position at Tobey Hospital. Mrs. Judith Erickson was hired to fill this vacancy and has begun her duties with much ability and enthusiasm.

Graduation Exercises were conducted at The Governor John Carver School on June 19, 1963. Members of the graduating class submitted essays on the theme of the pro-

gram, "The Freedom Trail." Ruth Ann Sand was presented the American Legion Essay Award by Commander Leslie Telless; Richard Sherwood was awarded the South Carver Community Service Group Essay Award by President Arlene Johnson, and Kathleen Roberts received the Selectmen's Award which was presented by chairman Frank Mazzilli. Mrs. Harold C. Gates, Jr., presented a trophy to Kathleen Roberts for highest achievement in the homemaking classes.

Mr. Erwin K. Washburn, Chairman of the Carver School Committee, announced that this would probably be the final formal graduation program for pupils of Grade 8. Graduation exercises at the Junior High level were introduced during a period in which only a few pupils would go on to high school. Today most all children continue their studies following their Junior High School work. Also, until this year, Carver children have gone, on a tuition basis, to schools in other communities. Now, of course, we have our own high school and our children are assured of having a continuous educational program for Grades 1-12. Mr. Washburn then presented diplomas to the following graduates:

Michael Almeida	David Clark Ingraham
Rosalind Marie Barros	Robert Wayne Kallio
Joel Francis Botelho	Lawrence Winsor Leach, Jr.
Lawrence Allen Carter	Joyce Lynne Maki
Almira Newel Chase	Linda Alberta Marshall
Paula Leopoldina Correia	Edwina Dorothy Martin
Barbara Ann Costa	Gerald Francis Parent
Glenn Edward Day	Alan Gould Paulding
Elaine Elma Erickson	Kathleen Anne Roberts
Donna Marie Fernandes	Ruth Ann Sand
Richard Simon Ferreira	Richard Arnold Sherwood
Robert Leslie Garnett	Janice Anne Wagner
Margaret Eileen Gholson	Thomas Atwood Weston
Deborah George Gibbs	Henry Stafford Williams
Wendy Anne Gomes	Christine Lillian Young
Carol Lynn Houston	

As of July 1, 1963, we realized a change in the administration of our schools due to the formation of a new union (Union 62) with Plymouth. I take this opportunity to Also we welcome our new Superintendent, Mr. Edward F. express our gratitude to Mr. George Austin, who for many years served faithfully as our Superintendent of Schools. Nicolas, and look forward to serving the Town of Carver with him.

Summer classes were organized again this year for those pupils who would benefit by additional instruction in reading and/or arithmetic. This program has proven itself to be very worthwhile and it is sincerely hoped that we will continue and possibly broaden the curriculum in the future.

Due to increased enrollments Grade 2 was relocated at The Benjamin Ellis School this year. Temporary classrooms were built for this purpose. This resulted in one extra room at The Governor John Carver School and this room has been used effectively for our Art and Music programs. However, this room also will have to be used as a regular classroom in September of 1964. Another result of the relocation of Grade 2 was the opening of a new position at The Benjamin Ellis School. Mrs. Mabel Eayrs continues to teach Grade 1 and capably assists in the planning and organizing of the programs for Grades 1 and 2.

Several new teachers joined our faculty this fall. Mrs. Hattie Griffith was elected to teach Grade 2, Mrs. Victoria Hunt was elected to teach Grade 3, Mr. Nunzie Daniele was elected to teach Special Class, and Mr Darrell Sawyer was elected to teach Science, Geography, and Physical Education at the Jr. High School level: We are fortunate to have these fine additions to our staff

There are numerous Modern Math programs being offered throughout the country. This change from traditional mathematics program became a necessity due to the techno-

logical revolution our society is experiencing. The implications of this for our schools are clear. We must insure that the education, in particular the Math education, provided by our schools, is adequate for the needs of our time.

As a result, during the past two years we have been making a gradual adjustment to the New Math Program. Textbooks published by Silver Burdett Co. have been adopted for Grades 1-6 and are being utilized at present. We expect to acquire Junior High School texts as soon as they are published early in 1964.

This year we have also obtained some Reading Laboratories developed by Science Research Associates. We had experimented with these materials in a limited sense and found that the pupils responded to them with much enthusiasm. We believe these materials will assist us in enriching and individualizing our present reading instruction. Each pupil begins at his own particular reading level and progresses at his own rate. The pupil also corrects, records, and charts his own responses. This allows the instructor sufficient time to make periodic checks on the individual progress.

This year we have also extended the departmentalized curriculum for grades 5-6. We feel that few teachers can be experts in every phase of the curriculum of a self-contained class. By allowing teachers the opportunity to concentrate their energies on three or four subjects the teachers can do a much better teaching job.

Programs scheduled during American Education Week are for the purpose of keeping parents informed on various aspects of the curriculum. This year Mr. Henry Shaw explained to parents the New Math and its implications here in Carver. Our New Mathematics materials were made available for inspection by parents. Mr. John Pacheco, Director of Instrumental Music in Plymouth, then offered an Introduction to Instrumental Music. This instrumental program was later introduced in The Governor John Carver School.

Sadness filled the hearts of all Americans on November 22 as the tragic news of the assassination of President John F. Kennedy spread across the nation. President Kennedy, a champion of education, was truly a man of principle and a great leader. His faith in the tremendous need for a strong educational system was expressed in his words, "Education is both the foundation and unifying force of our democratic way of life—it is the mainspring of our economic and social progress—it is the highest expression of achievement in our society." History will never forget the impact which President Kennedy had on the development of our strong and free nation as a leader in the world.

The appointment of Mr. Emmett Finck as Supervisor of Elementary and Special Class Education became effective December 1, 1963. This position was opened for the purpose of coordinating the elementary programs of Carver and Plymouth in order that the children of both towns might have equal preparation for their High School studies.

The Annual Christmas Music Festival was held at The Governor John Carver School on December 11. Several selections were offered by the Junior High School Glee Club and Grades 3–6 presented a musical play entitled "A Christmas Carol."

The annual magazine drive this year netted the school \$564.08 and a profit of \$148.10 was realized from the sale of photographs. Funds collected for the Junior Red Cross amounted to \$63.44.

Mrs. Irene Williams and her staff have continued to prepare excellent meals for our children. The financial statement of our lunch program is as follows:

Receipts:

Balance on Hand Jan. 1, 1963	\$106.99
Sale of Pupils' Lunches	10,482.86
Sale of Teachers' Lunches	932.30

Reimbursement from State	4,452.44	
Other Income	132.38	
	-----	\$16,106.97
Expenditures:		
Food	\$8,727.04	
Wages	6,288.29

Supplies	194.53	
Equipment	34.00	
	-----	15,820.03

Balance with Town Treasurer, Dec. 1, 1963		\$286.94

It is always gratifying to the Staff and me to realize the continued interest and support of parents, members of the School Committee and the Superintendent of Schools. It is only in this manner we can continue to promote a sound educational program for our children.

Respectfully submitted,

RICHARD J. ELDRIDGE,
Principal of the Carver Public Schools

ANNUAL REPORT OF THE PLYMOUTH-CARVER REGIONAL SCHOOL COMMITTEE

The operating year 1963 of the Plymouth-Carver Regional School District has been concerned mainly with finishing the construction of the new school building. We were able to open school on our scheduled date and utilize all facilities necessary for our scheduled programs. The building was accepted as substantially completed on September 1, 1963; as yet we are still in the process of correcting minor items. To the present time, we have encountered no major construction problems with the exception of the terrazzo flooring in the corridors. The terrazzo problems are being solved; the Committee has withheld enough money to guarantee that the flooring can be corrected before we terminate the contract. In a project of this magnitude, we have been fortunate to have only small problems to solve.

I would like to publicly acknowledge the efforts of Korslund, LeNormand & Quann, Inc., Anderson & Crawley, architects, J. L. Marshall & Sons, Inc., general contractor, Mr. Marshall Jackson, clerk of works, and Mr. F. Edward Nicolas, Superintendent of Schools, in achieving the opening of our school building on the target date. Without a combination of their efforts, the opening of the Plymouth-Carver High School would have been delayed. At the time of writing this report, the Plymouth-Carver Regional High School has been in operation for only one-half a year, we have a large staff and a large student body. The 1075 students is very close to our original estimate; in the next three years our classes will correspond very closely in number to the projected figures from our census studies. However, with the opening of the new highway and the projected population increases, serious thought must be given to long range planning of our population needs. The school should accommodate our needs for these years without any diffi-

culties. The towns of Plymouth and Carver must never be caught again in the educational "squeeze" which necessitated double sessions in Plymouth and the indiscriminate placement of Carver students in any high school available.

The Plymouth-Carver Regional School Committee is well aware of the increasing costs that are evident in our budget requests this year. These increased costs are due to several factors:

1. The increase in the number of students.
2. We have a four-year, rather than a three-year high school.
3. Because of a larger curriculum offering, the number of classroom teachers has had to be increased. (We are operating under the philosophy of tailoring the curriculum to the educational needs of the students, rather than the reverse.)
4. We are striving to keep a teacher-pupil ratio of 25 pupils or less.

Until the State or Federal Government provides some increasing aid to education, the local communities will have to continue to support education through the real estate tax; nevertheless, the only hope for a continued prosperous country is through a well educated public.

The administration and teaching staff of the new school have taken hold well and are implementing well the program of curricular and extra-curricular activity that has been proposed. The program for the students is obviously more important than the building, but without the physical plant, we would not be able to carry out this program.

Finally, it should be pointed out that we have completely built and equipped this new school building within the monies appropriated under the bond issues; we have applied all reimbursements to the construction and planning of the school. We believe that we have obtained excellent value

for the money expended. From this point forward, it will be our responsibility to concern ourselves with the education of the future adult citizens of Plymouth and Carver.

ANNUAL REPORT OF THE PRINCIPAL OF THE PLYMOUTH-CARVER HIGH SCHOOL

A year of transition in which a number of significant educational advances were made succinctly describes the year 1963 both at Plymouth High School and at Plymouth-Carver High School. Preparing for the opening of a new school necessarily required that everyone involved re-examine, diagnose, and evaluate qualitatively every aspect of education from the formulation of policies to the recorded progress of each student's growth and development. This procedure, which had begun earlier, was continued throughout the year 1963.

Every member of Plymouth High School staff, some of the members of the Plymouth Junior High Staff, and high school students, as well as professional consultants from universities, from the State Department of Education, from book publishers, from equipment manufacturers, and from suppliers, all played roles suited to their experience in the enormous task of planning for our new school.

Building specifications were analyzed, sources offering school furnishings and equipment were explored; the educational philosophy and the stated objectives to implement that philosophy were redefined; the program of studies was

carefully planned to utilize effectively the facilities of the new school; the students, their parents, and the citizens of Plymouth and Carver were briefed on all of these happenings, and a vigorous personnel campaign was initiated to attract to the school staff both promising and experienced teachers as well as other related personnel.

Amidst the process of charting the course for the new school, the educational program of the Plymouth High School program was proceeding at flank speed. A formal examination program for all students was established to take place at the end of the second and the fourth marking periods; a one semester personal typing course was introduced as well as was a large group-instruction driver education program; in addition, a seminar course in advanced French was initiated. The one semester course in World Literature was extended to a full year for those students who desire to study literature in depth.

These modifications indicate the trend of the times: more students are continuing their education in institutions of higher learning, and fewer students are dropping out of high school. The continuing education trend is clearly reflected in the plans of the students of the most recent graduating classes, those of 1961, 1962, and 1963; 52%, 54%, and 71%, respectively, of the members of those classes are continuing their education. Equally indicative of the trend of the times is the diminishing drop-out rate; for the years previously listed, the rate declined 6%, 5%, and 3%, respectively. Consequently, to provide the educational opportunities for the many students with varying abilities and objectives, many modifications of the curriculum are a continuing necessity.

During the year there were some changes in personnel. Mr. Craig T. Allen and Mr. William McAndrew resigned and were replaced by Mr. Bernard Barufaldi and Miss Gertrude Prior. Two outstanding, dedicated teachers, Miss Nellie Locklin and Mrs. Miriam Raymond, after forty-three and forty years of service to the youth of Plymouth retired in June.

The summer months were spent moving into and readying the new school for its September opening. Considerable planning by all of the department heads and many other staff members took place during the summer.

Restructuring the school organization from 10-12 to a 9-12 graded system and entering a new school with increased and improved educational facilities have had a considerable effect on both student and staff growth, curriculum, organization, and assignments of all kinds.

Student enrollment increased from 600 students to 1,080 students with students from Plymouth and Carver comprising approximately a 90%-10% ratio. Regionalizing, adding a ninth grade, and population growth are the predominant factors contributing to this increase.

Staff growth increased correspondingly from 34 to 65 teachers. Eleven teachers were transferred from the junior high school, and twenty-one other teachers were added to complement the Plymouth High School staff in order to create the faculty for the Plymouth-Carver High School. Notable additions include a vice-principal; three full-time guidance counselors, including a guidance director; three industrial arts teachers; a special education teacher; and a librarian.

The curriculum was reorganized to weave the ninth grade into the fabric of the other grades in order to effect a harmony and continuity of design. The language laboratory, the crafts room, the industrial arts shops, the additional science laboratories, and the project centers—all had an effect upon the growth, the organization, and the methods of teaching the curriculum. Creative writing, Modern European History, Spanish, sales and service, woodworking, metal-working, and power mechanics were new to the curriculum. In addition, extensions were made within the traditional courses to provoke more intellectual inquiry as well as to provide greater opportunity for more students to participate in interscholastic and intra-mural athletics. Students are now required to do more reading and writing, to elect more social studies, to study more involved mathematics and science courses, and to speak and to understand

foreign languages. In addition, many more students are engaged in physical fitness programs and extra-curricular activities.

The conference rooms, the lecture room and the rooms with movable partitions have enabled us to group students for instruction in a variety of ways, depending upon the learning goals. Team teaching is being done by teachers of science, art, and industrial arts. All science and language students have extensive laboratory experiences, and there are opportunities for independent study in the library, the science reference center, and the student project centers.

Class assignments have been made to provide for the broad range of interests, abilities, and aspirations of students at many levels: personal conferences with each student to discuss his scholastic program were arranged by guidance counselors so that students are now informed of all the available opportunities commensurate with their goals and interests.

The outcome of this approach has been to provide greater opportunities, more program flexibility, and more individual responsibility for learning. In order to optimize teachers' specialized skills and, thereby, to improve the quality of teaching, the individual differences and competencies of the staff were carefully considered before making staff assignments. Besides class obligations each teacher has a daily planning period; department chairmen are allowed an additional period in which to supervise activities and to conduct other department business.

In conclusion, we must observe that our Plymouth-Carver High School experience has been too brief to permit us to claim either extraordinary or revolutionary achievements; our launching, however, was relatively smooth and the voyage has begun. As a group we are constantly in the process of examinations, diagnoses, and evaluations, hopefully, to implement our strengths, to eliminate our weaknesses, and to motivate the best education possible for all students—however diverse their abilities. That is our goal at Plymouth-Carver High School.
